

DULAJ HANSANA

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

077 893 7472 | dulajhansana1973@gmail.com | B11/1, Dedigama, Kegalle

Portfolio: dulajhansana.me | LinkedIn: [dulajhansana](#) | GitHub: [DevDulaj](#)

PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with expertise in modern web technologies including React.js, Next.js, Node.js, and cloud platforms. Proven track record of delivering 10+ production-ready projects ranging from mobile applications to real-time messaging systems. Currently pursuing Bachelor of ICT at University of Sri Jayewardenepura (GPA 3.68) while gaining hands-on industry experience as Software Engineer Intern at Payshia Software Solutions. Strong foundation in both frontend and backend development, database management, and DevOps practices. Active open-source contributor and IEEE member with leadership experience in technical communities. Seeking software engineering opportunities to build innovative solutions and contribute to cutting-edge development teams.

TECHNICAL SKILLS

Frontend Development

- React.js, Next.js
- JavaScript (ES6+), HTML5, CSS3
- Tailwind CSS, CSS Modules
- Responsive Design, UI/UX
- Figma (UI Design)

Backend Development

- Node.js, Express.js
- PHP
- REST API Development
- Socket.io (Real-time Communication)

Database Management

- MongoDB (NoSQL)
- MySQL (SQL)
- Firebase (Realtime Database, Firestore)
- Database Design & Optimization

Cloud & Deployment

- Microsoft Azure
- Amazon Web Services (AWS)
- Vercel
- Docker (Containerization)

AI Tools

- ChatGPT
- Google Gemini Pro
- Claude AI

Development Tools

- Git, GitHub (Version Control)
- Agile/Scrum Methodologies
- CI/CD Pipelines
- RESTful API Integration

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Payshia Software Solutions (Pvt) Ltd | March 2025 – September 2025

Developing full-stack web applications using React.js, Node.js, and modern JavaScript frameworks, implementing RESTful APIs, translating Figma designs into responsive interfaces, and collaborating with cross-functional teams using Agile methodologies to deliver optimized, production-ready features.

Open-Source Contributor

GitHub Community | 2023 – Present

Contributing to open-source projects through pull requests, bug fixes, documentation improvements, and collaborating with global developer communities across diverse tech stacks.

IT Support Staff

Bank of Ceylon | April 2021 – April 2022

Provided technical support for core banking systems, e-banking platforms, and financial software applications while collaborating with teams to troubleshoot production issues and enhance service delivery.

EDUCATION

Bachelor of Information and Communication Technology Honours

University of Sri Jayewardenepura | 2022 – Present

GPA: 3.68/4.00 (2nd Class Upper Division)

GCE Advanced Level

Swarnajayanthi College, Kegalle | 2020

Results: A (2 passes), B (1 pass) | District Rank: 4th

LEADERSHIP & VOLUNTEERING

Financial Representative | IEEE Student Branch, University of Sri Jayewardenepura

- Managed finances for events, coordinated the J'pura CryptX 1.0, and contributed to innovation-driven projects.

Active Member | Technology Communities

- Participated in workshops on JavaScript, AWS, Azure, and DevOps through various tech communities.

KEY PROJECTS

Hybrid RAG-Based Misinformation Detection System | *Research Project | Team | 2025*

Tech Stack: Python, LLMs, Knowledge Graphs, Vector Databases, WebSocket, NLP, Machine Learning

- Designed and developed a real-time fact verification framework for social media using Retrieval-Augmented Generation (RAG), knowledge graphs, and vector embeddings. Implemented multi-agent architecture with corrective retrieval loops, semantic classification, and credibility scoring to detect and verify misinformation with transparent, explainable results.

Professional Portfolio Website | *Web Development | Individual Project | 2025*

Tech Stack: Next.js, React.js, CSS Modules, JavaScript, Vercel

- Designed and developed a responsive portfolio website using Next.js, React.js, and CSS Modules to showcase projects, technical skills, and professional experience, integrating a contact form, optimizing performance, and deploying on Vercel for SEO and mobile responsiveness.

URL Shortener Web App | *Frontend & Backend | Individual Project | 2025*

Tech Stack: React.js, JavaScript, TinyURL API, HTML, CSS, Vercel

- Developed a URL shortening application with instant shortening and one-click copy functionality, integrating the TinyURL API for reliable service, and creating a responsive UI deployed on Vercel for seamless user access.
