

THAMOJ DINUJAYA

Full Stack Developer Intern

w.k.thamoj@gmail.com | +94713552523 | Matara, Sri Lanka | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Creative and passionate software engineer with expertise in the MERN stack and UI/UX design, dedicated to building user-friendly, efficient, and visually appealing applications. Skilled at approaching complex problems from multiple perspectives and translating ideas into clean, functional solutions. Experienced in collaborative team environments and committed to continuous learning, with a strong focus on delivering high-quality, impactful software that combines technical excellence with outstanding user experience.

EDUCATION

BSc (Hons) in Information Technology (Undergraduate) 2023 – Present

University of Moratuwa — Faculty of Information Technology | CGPA: 3.15

G.C.E. Advanced Level — ST/Thomas College, Matara 2021

Combined Maths (A), Chemistry (A), Physics (B) | Z-Score: 1.7638

G.C.E. Ordinary Level — ST/Thomas College, Matara 2017

8A, 1B

PROJECTS

Buildify — Full-Stack E-Commerce Platform 2024 – 2025

React.js, Express.js, MongoDB, Tailwind CSS, MUI, Stripe API | **Team Project (Mentored by Rootcode)**

- Engineered a full-featured PC components e-commerce platform supporting individual part purchases and custom PC builder functionality, serving a team of 5 members using agile workflows
- Implemented real-time component compatibility validation engine to prevent invalid configurations, reducing user error rate significantly.
- Integrated Stripe payment gateway for secure online transactions with order processing and user authentication APIs.
- Developed server-side dynamic product filtering and interactive cart management, improving product discoverability across 100+ catalogue items.

[Repo](#) | [Live Demo](#)

Automobile Service Time Logging & Appointment System 2025

Spring Boot, Spring Security, PostgreSQL, Next.js, TypeScript | **Group Project**

- Built a full-stack service management platform with role-based access portals for admin, technician, and customer roles.
- Designed secure CRUD APIs with Spring Security, real-time data updates, and a responsive Tailwind CSS interface.

[Repo](#) | [Live Demo](#)

LyriX — Music Streaming Platform 2025

React.js, Node.js, MongoDB, Tailwind CSS | **Individual Project**

- A spotify-style full-stack music application featuring JWT authentication, playlist management, advanced search, and smooth audio playback.
- Scalable RESTful APIs and a fully responsive UI with optimized audio streaming performance.

[Repo](#) | [Live Demo](#)

Libra-Link — Online Library Borrowing System

2025

React.js, Express.js, MongoDB, Tailwind CSS, Vercel | Individual Project

- Built a complete MERN-stack library management system supporting book search, borrowing workflows, and admin inventory management.
- Deployed to Vercel with scalable API architecture enabling smooth performance for concurrent users.

[Repo](#) | [Live Demo](#)

BeeWise — Smart Beehive Monitoring System

2023 – 2024

Arduino, ESP32, C++, React.js, Firebase | Hardware Project

- An IOT system integrating temperature, humidity, weight, and CO2 sensors to monitor beehive health and automate syrup feeding.
- Built a real-time web dashboard using React.js and Firebase for remote monitoring and data analysis.

[Repo](#) | [Live Demo](#)

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript, Python, C, C++
- Web Development: React.js, Next.js, Springboot, Tailwind CSS, Node.js, Express, JavaScript, HTML
- Databases: MySQL, MongoDB, PostgreSQL
- Version Control: Git, GitHub
- Project Management Tools: ClickUp
- UI/UX Design: Figma, Canva
- Cloud Services: AWS, Firebase
- Concepts: REST APIs, JWT Authentication, Microservices Architecture, Agile, OOP, SDLC
- Other: Postman, IoT & Embedded, Adobe Softs (Photoshop, Premiere Pro, After Effects), 3D Modeling

SOFT SKILLS & LANGUAGES

- Soft Skills: Team Work, Adaptability, Time Management, Effective Communication, Problem Solving, Leadership
- Languages: English, Sinhala (Native)

ACHIEVEMENTS & ACTIVITIES

- FIT CodeRush (2023) — Competitive programming participant, conducted by INTECS, University of Moratuwa.
- MoraExtreme 9.0 (2024) — Engineering competition participant, organized by IEEE, University of Moratuwa.
