

THARAKA GAMAGE

Software Engineer Intern

Email: tharakaashen830@gmail.com | **Phone:** +94 78 327 1738

LinkedIn: linkedin.com/in/tharakagamage71 | **GitHub:** github.com/TharakaGamage830

Portfolio: tharaka-gamage.netlify.app | **Location:** Pitigala, Sri Lanka

PROFILE SUMMARY

Motivated Computer Science student with hands-on experience building full-stack web applications using React, Spring Boot, and MERN stack. Skilled in developing scalable applications with secure authentication, role-based access control, and RESTful API design. Experienced in Scrum methodology and delivering real-world solutions. Seeking a Software Engineering Internship to apply technical expertise and contribute to innovative projects.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, PHP

Frontend Development: React.js, HTML, CSS

Backend Development: Node.js, Express.js, Spring Boot

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Figma, SonarCloud, Trello

Development Practices: Agile Methodology, Object-Oriented Programming, MVC Architecture

PROJECTS

BloodConnect - Blood Donation Web Application

Individual Full-Stack Development | React, Node.js, Express, MongoDB, JWT, Role Base Access

August 2025 - October 2025 | Live Demo: blood-connect-self.vercel.app

- Developed a full-stack blood bank management platform using React, Node.js, and MongoDB to streamline coordination between blood banks, donors, and recipients.
- Built automated inventory monitoring with Mongoose middleware that categorizes blood stock by status, reducing manual oversight by 40%.
- Implemented RBAC with JWT authentication and optimized RESTful APIs with MongoDB indexing for sub-second query performance across four user roles.
- Conducted comprehensive QA testing using Postman and manual UI/UX testing to ensure feature reliability and seamless user experience.

Rashmi Tyre Streamline Solution (RTSS)

Real-World Group Project (5 Members) | React, Spring Boot, PostgreSQL, Jenkins, Google Cloud, Python, META Prophet, META WhatsApp Service, JWT, SonarCloud

January 2025 - April 2025

- Led a 5-member cross-functional team as Scrum Master, utilizing Agile methodology and Trello to deliver a multi-branch ERP and POS system.
- Engineered a scalable inventory and customer management system using Spring Boot (Java 21) and React, with PostgreSQL for centralized data management.
- Implemented automated real-time order updates via Meta WhatsApp Business API and established secure role-based access control using JWT
- Ensured high system reliability through extensive Postman API testing and maintained strict code quality standards via SonarCloud.

SafePath Observer - Driving School Management System

Web Application | PHP, MySQL, AJAX

July 2025

- Built secure PHP-based web system with modular MVC architecture for student registration and instructor management
- Created PDF report generation feature for student progress tracking
- Designed normalized database schema in MySQL ensuring data integrity and optimal query performance

WildNet - Wildlife Education Platform

Desktop Application | Java, JavaFX, MySQL

2023 - 2024

- Created interactive educational platform with Java backend and JavaFX frontend for wildlife conservation awareness
- Developed personalized user dashboards with progress tracking and achievement systems
- Designed MySQL database with relational schema for efficient data retrieval and user management

EDUCATION Bachelor of Computer Science (Expected Graduation: 2026)

University of Ruhuna, Matara, Sri Lanka

Advanced Level Examination - 2020

Ananda Central College, Galle, Sri Lanka

Combined Mathematics: A | Chemistry: C | Physics: C

ACHIEVEMENTS & LEADERSHIP

- Runner-up, MoraSpin Table Tennis Tournament, University of Moratuwa (2024)
- Champion, Intra-Faculty Meet Tennis and Table Tennis, University of Ruhuna (2025)
- Active Volunteer, Zero Plastic University of Ruhuna and Sasnaka Sansada Galle & Matara
